

What You Need to Know About Overdrafts and Overdraft Fees

An **overdraft** occurs when you do not have enough money in your account(s) to cover a transaction, but we pay it anyway. We can cover your overdrafts in two different ways.

1. We have **standard overdraft practices** that come with your account.
2. We also offer other **overdraft protection plans**, such as a link to a savings account or an overdraft line-of-credit*, which may be less expensive than our standard overdraft practices. To learn more, ask us about these plans.

This notice explains our standard overdraft practices.

What are the **standard overdraft practices** that come with my account?

We do authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions made using your checking account number
- Automatic bill payments

We **do not** authorize and pay overdrafts for the following types of transactions unless you ask us to (see below):

- ATM transactions
- Everyday debit card transactions

We pay overdrafts at our discretion, which means we **do not guarantee** that we will always authorize and pay any type of transaction. If we **do not** authorize and pay an overdraft, your transaction will be declined.

What fees will I be charged if Atlantic Financial FCU pays my overdraft?

Under our standard overdraft practices:

- If you overdraw your account we will charge you a fee of \$25.00 each time we pay an overdraft.
- There is **no limit** on the number of total fees we can charge you for overdrawing your account(s).
